## REPORT OF SCHOOL BOARD

As there is a bill at time of this report before the House of Representatives which reorganizes the whole system of raising school money and apportionment of state aid, the New Hampshire Department of Public Instruction has made a request of delay the annual school meeting as late as possible in order to follow the new regulations if the bill should become a law.

It has been the custom of the State Department in previous years to notify school boards and superintendents on or about February 1, of the amount of money required by law for schools, and the amount to be raised entitling districts to state aid.

Therefore the school warrant and recommendations for the amounts to be assessed by the selectmen for the coming year have been omitted as the date of meeting and amount of money required cannot be reported at present.

The spring term consisted of 14 weeks, the fall 18, making a total of 32 weeks.
